EACH

A NOTE ON CONTACT DETAILS

Every entry is a real, publicly known firm, fund or angel network. Direct personal emails and phone numbers for investment partners are frequently not published and cannot be verified from public sources; where they are not reliably known, those fields are left blank rather than guessed — no contact information has been fabricated. Each firm's website is the reliable contact anchor (team pages and pitch-submission forms live there).

RECOMMENDED APPROACH

Warm introductions convert far better than cold outreach. Where possible, seek a mutual connection before reaching out; when going direct, use each firm's submission form, personalise the [First Name] and [Firm] merge fields, and lead with the strategic fit noted for that investor type.

OUTREACH MESSAGES — PERSONALISE [FIRST NAME] / [FIRM]

FORMAL / CORPORATE

Dear [First Name],

I am writing to introduce The Secret Server, the first patented 3D augmented-reality menu and staff-training platform built specifically for hospitality. Our technology lets guests view menu items in photoreal 3D at the table while giving operators a powerful onboarding and training tool for front-of-house teams — all through a single, GDPR-compliant platform.

Given [Firm]’s deep focus on foodservice and hospitality, I believe there is strong strategic alignment. We are raising our first institutional round (positioned as seed / Series A) to accelerate a live UK and European partnership and expand multi-unit rollouts.

Might I share our deck and arrange a brief introductory call?

With kind regards,
Christie Lawler
CEO & Co-Founder, The Secret Server

CONVERSATIONAL PROFESSIONAL

Hi [First Name],

I lead The Secret Server — we’ve built the first patented 3D AR menu and staff-training platform made just for hospitality. Guests explore dishes in true-to-life 3D at the table, and operators get a built-in training and onboarding tool for their teams, with GDPR-compliant analytics behind it.

I’ve been following [Firm]’s work across restaurants and hospitality, and it feels like a natural fit. We’re opening our first round to fuel a live UK/EU partnership and more multi-unit rollouts.

Would you be open to a quick call? Happy to send the deck across first.

Best,
Christie Lawler · CEO & Co-Founder, The Secret Server
832.637.6355 · [thesecretserver.co](#)

BOLD / DISRUPTIVE

Hi [First Name],

Restaurants still hand guests a flat paper menu and throw new hires into the deep end. We fix both. The Secret Server is the first patented 3D AR menu and staff-training platform — guests see every dish in photoreal 3D, and operators cut training time with the same tool.

[Firm] backs the companies redefining hospitality, and we’re next. We’re raising now to scale a live UK/EU partnership. I’d love 15 minutes to show you why this becomes the new standard.

OUTREACH MESSAGES — PERSONALISE [FIRST NAME] / [FIRM]

FORMAL / CORPORATE

Dear [First Name],

I am the founder of The Secret Server, a patented hospitality platform whose 3D augmented-reality menu is paired with a powerful staff-training and onboarding capability. Hospitality suffers from high turnover and costly, inconsistent training; our tool shortens time-to-competence and standardises the guest-facing experience.

Given [Firm]'s focus on learning, upskilling and the future of work, I believe our workforce-training application would resonate. We are raising our first institutional round to scale a live UK and European partnership.

May I share our deck and training outcomes?

With kind regards,
Christie Lawler
CEO & Co-Founder, The Secret Server

OUTREACH MESSAGES — PERSONALISE [FIRST NAME] / [FIRM]

FORMAL / CORPORATE

Dear [First Name],

I am writing on behalf of The Secret Server, the first patented 3D augmented-reality menu and staff-training platform for hospitality. Beyond capital, we see a clear strategic fit with [Firm] — both as an investment and as a distribution or pilot partner across your hospitality and foodservice footprint.

CONVERSATIONAL PROFESSIONAL

Hi [First Name],

I lead The Secret Server — a patented 3D AR menu and staff-training platform for hospitality. With [Firm], I see two ways to work together: as an investor in our first round, and as a strategic partner who could pilot or distribute the platform across your network.

We're raising to scale a live UK/EU partnership.

BOLD / DISRUPTIVE

Hi [First Name],

The operators who adopt AR-driven guest engagement and staff training first will pull ahead — and [Firm] is positioned to lead. The Secret Server is the first patented platform that does both, ready to pilot across your footprint.

We're raising our first round and looking for strategic

We are raising our first institutional round to accelerate a live UK and European partnership, and would welcome a conversation about strategic collaboration. Might I share our deck and a proposed pilot outline?

With kind regards,
Christie Lawler
CEO & Co-Founder, The Secret Server
832.637.6355 · hello@thesecretserver.co · thesecretserver.co

Could we find time to explore both angles? I'll send the deck and a short pilot idea ahead.

Best,
Christie Lawler · CEO & Co-Founder, The Secret Server
832.637.6355 · thesecretserver.co

partners, not just cheques. Let's talk about investment and a pilot in one conversation — 15 minutes?

OUTREACH MESSAGES — PERSONALISE [FIRST NAME] / [FIRM]

FORMAL / CORPORATE

Dear [First Name],

I am writing to introduce The Secret Server, the first patented 3D augmented-reality menu and staff-training platform for hospitality. We are an experience-led, recurring-revenue business at the intersection of consumer engagement and enterprise efficiency, with a live UK and European partnership now underway.

While our current round is our first, I am building relationships with growth and consumer-focused investors such as [Firm] ahead of subsequent expansion capital. I would welcome the opportunity to share our deck and trajectory.

With kind regards,
Christie Lawler
CEO & Co-Founder, The Secret Server

CONVERSATIONAL PROFESSIONAL

Hi [First Name],

I lead The Secret Server — a patented 3D AR menu and staff-training platform that sits right where experience-led consumer meets enterprise SaaS. We've got a live UK/EU partnership underway and strong recurring-revenue momentum.

We're closing our first round now, and I'd love to get on [Firm]'s radar ahead of our growth stage. Could I share the deck and set up an intro call?

Best,
Christie Lawler · CEO & Co-Founder, The Secret Server
832.637.6355 · thesecretserver.co

BOLD / DISRUPTIVE

Hi [First Name],

The next iconic hospitality brand won't be a restaurant — it'll be the platform every restaurant runs on. The Secret Server is building it: patented 3D AR menus plus staff training, recurring revenue, live UK/EU expansion.

[Firm] backs category winners as they break out. We're closing our first round now and lining up growth partners for what's next. Worth 15 minutes?
